REBELS TELL WHY THE REVOLT STARTED

Back of Every Reason In Fight Being Made

ON THE CUBAN GOVERNMENT

Many People Are Killed and Wounded in Terrible Explosion in Havana. Explosion Thought To Be Work of Incendiaries.

Havana, Sept 18—The insurgents' leaders, Compos Marquetti and Carillo, have withdrawn their forces from Guanajay and have agreed to the suspension of hostilities pending peace negotiations. Other insurgent leadeds, so far as they have been heard from, also are agreeing to the suspension of hostilities.

Word has just been received here of the first fighting in Santiago province. Four hundred rebels under Colonel Dubois met the rural guards at LaMaya. The result of the engagement is not yet known.

New York, Sept. 18.—The revolutionary junta of New York has issued a program giving the insurgents' reasons for taking up arms against the Palma government. The proclamation says:

"In the first place this movement must not be confounded with the internecine strife that so often disturbs the quite of the Central and South American republics. With it is not a fight alone for the control of the presidency.

"We have been careful not to overdraw the seriousness of the political situation in Cuba and have made no charges that cannot be fully substantiated by unbiased investigators.

"We charge that President Palma obtained his election to office through fraud and intimidation and by the by the denial to the liberals their right of suffrage.

"We charge that the government of President Palma was directly responsible for the killing of Colonel Enrique Villuendez, a member of the house of representatives, at Cuefuegos, Sept. 22, 1905.

"We charge that President Palma has usurped the powers and functions of the governing bodies of municipalities, and has annulled arbitrarily and without warrant of law, the elections of liberal officials, displacing them with members of his own political party, the moderates.

"We charge that he has in like manner removed from the bench judges who refused to act in their judicial capacity according to his dictation. President Palma also has imprisoned without judicial proceedings, members of the liberal party because they voiced their protests against his dictatorial conduct.

"The liberals have made continued peaceful appeals that this injustice be righted, but to all these the government turned a deaf ear. Denied the constitutional rights for which the Cubans fought, bled and died for for half a century, we decided that our only recourse was again to take up arms.

"We now ask only one thing—and that is that the illegal and fraudulent election of last December be annulled and a new election held, at which every Cuban citizen will be given a fair chance to vote."

In concluding, the proclamation says:

"Palma is today the dictator of Cuba, instead of adviser," and declares that the men who surround him are the same who supported the Spanish regime while the Cuban patriots were in the field fighting.

The Times today states that according to a story which is being told in financial circles here, the real cause of the action of President Roosevelt in regard to Cuba was not the appeals of American sugar planters nehr Cienfuegos, but a complaint made through the British embassy at Washington regarding the damage done to the property of the Western railroad, owned by British capitalists, and the head office of which is in London.

A Cuban who arrived here Sunday [illegible]

over 14,000 well-armed insurgents in the field at the present time, which was more than there were in the last war with Spain.

Havana, Sept. 18.—A violent explosion occurred here Monday morning and wrecked two brick buildings. Six persons were killed and many were wounded. No details of the cause are yet at hand. An investigation is being made. The explosion is thought to be the work of incendiaries. The buildings at once caught fire. Dead and wounded are still being taken from the wreckage. The buildings were insured.

Washington, Sept. 18—Preparations are being made by the navy for any emergency in Cuba, but no additional orders have been issued dispatching warships to Cuban waters. The Minneapolis and New York, are under rush orders to prepare for sea, but have not yet been sent away. The situation has not yet developed to a point where it is believed that battle ships will be necessary, though the Virginia, New Jersey and Louisiana are undergoing the shaking down process and can easily be picked up by wireless if it should happen that they are needed in a Cuban emergency.

Boston, Sept. 18.—A private cablegram received here Monday by E. F. Atkins, from Cuba, says that the general conditions in the South Santa Clara province are desperate, but that the Atkins factory or sugar refinery buildings on the Soledad estate have been saved from the insurgents by the presence of marines from the gunboat Marietta. About 2,000 people are employed on the Soledad estate which is one of the largest in Cuba controlled by an American, and up to now it was believed that the buildings on the property were in danger from revolutionists.

It was partly because of representations of danger made by Mr. Atkins to the state department at Wasnington, that a warship was dispatched to the southern side of the island to protect American interests at and near Cienfuegos.

Mr. Atkins said that all transportation had been suspended in the southern country and that the interior towns were practically without supplies and daily becoming more helpless.

Coal Miners Called Out.

Terre Haute, Sept. 18.—Orders were issued Sunday calling out all the men employed by the Vandalia Coal company. The action was taken by the district officials of the United Mine Workers of America and was the result of the failure to adjust differences growing out of the dischage of two men at Vandalia No. 5, near Linton. The Vandalia employs about one-fifth of the miners in this district.

Option on Howland Estate.

New York, Sept. 18.—A Newberg N. Y., dispatch to the World states that Harry K. Thaw's mother is reported to have secured an option on the Howland estate near Matteawan. The property is about a mile from the Matteawan state hospital, and the negotiations are taken to mean that Mrs. Thaw anticipates that her son will be committed to that institution.

Best Time Made.

New York, Sept. 18.—William K. Vanderbilt, Jr., went over the Vanderbilt cup course on Long Island course on Long Island Sunday in 28 minutes. As the course measured 29.7 miles his speed was better than a mile a minute. It is the best time yet made over the cup course. Mr. Vanderbilt drove a 90-horse power car.

ALEXANDER PLACED UNDER ARREST

Violent Sobs Shook Exile When Caught.

BROKEN IN HEALTH AND SPIRITS

He Has Been Traveling Ever Since He Left Augusta, and Says Strain Was Driving Him Crazy—He Will Return Without Requisition.

Pittsburg, Pa., Sept. 18—Broken in health and spirits by the terrible experiences of the past three months, Thomas W. Alexander, formerly a wealthy broker and prominent society leader of Augusta, Ga., was arrested in a downtown hotel charged with the forgery of documents on which he is said to have realized $200,000 before his sudden departure from Augusta two months ago. Alexander and his brother were partners in a brokerage business, and his downfall is attributed to speculation in cotton.

The prisoner was permitted to remain in his room at the hotel under guard of two detectives. He has signified his willingness to return to Augusta without requisition papers, and will likely be started on his journey within the next day or so.

"I would face my accusers a thousand times rather than live the past two months over again," sobbed the prisoner, as he sat in his room.

Since his hurried departure from Augusta, after his financial crash, Alexander has been a fugitive. Traveling almost constantly he has been in hourly dread of arrest. He managed to elude the officers in New York, Philadelphia, St. Louis, Chicago and other cities, until, with his nerves almost completely wrecked, he finally arrived in Pittsburg last Friday.

Going to a hotel he registered as Thomas W. Burton. He had not been in the city more than a few hours until the Augusta officials knew of his whereabouts. A private detective agency in that city, which had been leading in the hunt, sent word to the Perkins' detective agency in this city informing them that Alexander was in Pittsburg.

After securing a good description of the fugitive, two detectives started on a hunt for Alexander, and he was located in this city. The Augusta authorities were notified, and ordered his arrest.

When the detectives walked up to Alexander in the lobby of the hotel he was nervously pacing back and forth, his chin sunk upon his breast.

"You are under arrest, Mr. Alexander," said one of the officers.

"My God, caught at last! Hurry, take me out of this crowd," was the reply.

The detectives escorted him to his room. There he broke down completely. At first he was not willing to return to Augusta without a legal fight. He seemed to dread his return in disgrace to the city where only two months ago he was one of the leading business and club men. Finally he consented to go without a requisition.

Alexander at the time of his disappearance was a man of remarkably striking appearance, tall and well-built with a clear eye, and nerves of steel. The man who will go back to answer to the many criminal charges is stoop shouldered, nervous, and but a shadow of his former self.

He told the officers that after making his escape he traveled constantly. He said that the eternal vigilance which he knew to be the price of freedom had worn him out physically and mentally and for this reason he was not sorry, in some ways, for his capture, as he believed that he would have gone crazy had the chase continued much longer. Alexander begged that he be spared the shame of spending a night in prison. It was then agreed that the officers would remain with him in his hotel.

Odessa, Sept. 18.—Upwards of one hundred persons were arrested here for rejoicing over the death of General Trepoff in the public streets.

MURDER CASES ON TRIAL.

Fred Hawkins and Jas. Reed Are Defendants in Hall County.

Gainesville, Ga., Sept. 18.—Judge Kimsey Monday morning convened Hall superior court in called term for the purpose of trying Fred Hawkins and James Reed, who are charged with murder.

Reed is charged with killing the 21 year-old son of Dr. A. W. Hunt at a church near Flowery Branch, several months ago. A previous hearing resulted in a mistrial. Young Hunt lived several days but was never able to make any statement. The evidence is wholly circumstantial and a number of theories have been advanced as to the death.

Hawkins is charged with killing Henry Cagle, near Lula, a few weeks ago. Mr. Cagle was shot at his home while he and his wife were searching for supposed chicken thieves at the hen house near the residence. In an ante-mortem statement Cagle is said to have stated that Fred Hawkins shot him.

Both cases have attracted intense attention in this section. The Reeds, Hunts, Hawkinses and Cagles being four of the most prominent families in the county. Rev. O. J. Copeland on Sunday night at the First Baptist church made special earnest prayer for the officers and jurors of the called term of court, which convened to try two murder cases Monday.

Germans Seek Protection.

St. Petersburg, Sept. 18.—The insecurity of life and property in the Baltic Provinces, which culminated last Saturday in the murder of Herr Bush, arch-German manufacturer, and leader of the German colony at Riga, has led German embassy here again to make energetic representations to the foreign office concerning the adoption of measures for the protection of German subjects. Bush was killed by agents of the revolutionary organization engaged in levying tribute.

In a communication from the old leader which was read at the Tabernacle Sunday, he advised his loyal followers to remain away from the polls at the election of the new general overseer.

William Bryan Arrives in Raleigh.

Raleigh, N. C., Sept. 18—William J. Bryan arrived in Raleigh Monday and will make eleven speeches in North Carolina, winding up with an address at Charlotte Tuesday night. Rain had been falling intermittently during the morning which upset arrangements generally and threw a damper on the spirits of those gathered in Raleigh to greet the city's noted guest. The limited capacity of the hall was taxed. Governor Glenn introduced Mr. Bryan briefly and then announced that an overflow meeting would be held in the capitol square.

Boll Weevil Migrating Eastward

New Orleans, Sept. 18—The eastern migration of the cotton boll weevil in which it is expected to cross the Mississippi river this year, is now proceeding rapidly, according to the state crop pest commission. Within the past month, the pest has flown a distance eastward averaging 40 miles. In Central Louisiana during the past week, migrating weevils are reported to have traveled about 15 miles. The nearest point from the state of Mississippi which the weevil has reached, is Wilkinson county, a distance of 30 miles from Mississippi.

Placed in "Conscience Fund."

Nashville, Sept. 18—Twenty years ago a man stole a ride from Chattanooga to Nashville on a Nashville, Chattanooga and St. Louis railway freight train. Monday morning General Passenger Agent Danley received a money order from the same man, who now lives at Mount Vernon, Ills., for $1.50 which the remitter desires to be placed in the "conscience fund." Mr. Danley has written the man thanking him and saying the debt has been wiped out by the purchase of a ticket between the two points and having it canceled.

JEWISH HOLIDAY WILL BEGIN TODAY

Rosh Oshana Will be Observed by Israelites of This City.

A VERY IMPRESSIVE OCCASION

The Rosh Oshana is Observed Ten Days Before the Approach of Yom Kippar, and Lasts For Twenty-Four Hours—Probable Services.

Beginning at 6 o'clock this evening the Jewish population of Gainesville will begin the observance of one of the greatest days in Jewish history, being Rosh Oshana, or New Year's Day.

Up to the coming of Royal Cook to this city about ten years ago, this event had not been observed by the Jews in Gainesville; but Mr. Cook inaugurated the custom, which has been kept up annually ever since.

Mr. Cook, who is a learned Jew on Biblical history, gives this explanation of the occasion:

"Rosh Oshana, first day of Tishi, meaning the first day of the beginning of the world, and the beginning of a new year after the rebuilding of the temple by Ezra; at the same time it is intended to prepare ones-self for Yom Kippar, or the day of atonement, which is observed ten days afterward.

"Four hundred and seventy years before the temple, the Ten Commandments were delivered to Moses on Mount Sinial, in commemoration of which the Israelites blow the shofar, or ram's horn.

"A glorious time this is in Jewish religion, and they are supposed to atone for all the sins committed, and to become friendly with one another should any differences exist."

In observance of this day, beginning at 6 o'clock tonight, the stores of the Jews will be closed for twenty-four hours, and Mr. Cook states that if ten male Jews can be gotten together there will be service. No female is permitted to officiate at a service, and Mr. Cook says if there were a million women and only nine men, there will be "nothing doing."

The coming year will be 5667.

K. of P. District Meeting.

The quarterly district meeting of the Knights of Pythias, Fifth District, was held with Mount Vernon Lodge No. 20, Tuesday night. A large number of visitors were present, representing eleven lodges from three counties.

There was plenty of work to demonstrate to the visitors how the degrees should be performed, and altogether the meeting was one full of interest and pleasure.

Chancellor Commander D. M. Tomkies turned the meeting over to District Deputy Grand Chancellor Oliver J. Farmer when the regular meeting of Mount Vernon was at an end, and Mr. Farmer carried the work to perfection.

At the conclusion there was a fine spread, which was enjoyed by all present.

A fuller description will be given in The Sun later.

Beliefs of Middle Ages.

Berlin, Sept. 17.—Count Von Hoensbroech, a member of a Catholic family, has written a letter to the Liepsig Nueste Nachrichten concerning Father Verse, the newly elected general of the Jesuits. The count says he was a pupil of Verse in the early eighties and that the convictions and beliefs of the new general are those of the middle ages. He quotes largely from Father Verse's book published in 1892, in which the author avers that the state should rest under the jurisdiction of the church.

ELECTRIC LINE FOR WAYCROSS.

Provided a Franchise is Secured, the Road Will be Built.

Waycross, Ga., Sept. 18.—At a regular meeting of the city council the question of granting a street car franchise was discussed, and while the council and Messrs. George W. Deen and W. M. Toomer, the petitioners, did not quite agree, it is likely that an agreement will be reached in a few days. There were four articles in the petition which could not be shaped up so as to be satisfactory but it is believed beyond doubt that the franchise will be granted at the next meeting of the council.

The proposed electric car line to be constructed by Messrs. Dean and Toomer will cost at the start about $300,000. While every part of the city will be eventually traversed by the car lines, it is the company's intention to put in but 10 miles of the track as soon as it is possible to be done after the franchise is granted. Commencing at a point near the electric light plant, the line will run down Plant avenue to Butler street, then out Butler street to the fair grounds, and a circle will then be made about Riverside Park and across to Denwood, thence back to the center of the city on Albany avenue and Tebeau streets. Another circle will go out Brunel street to Marion street, then across to Lee avenue, thence to Plant avenue.

The petitioners will be required to give a bond that work will be commenced within six months from the granting of the franchise.

DUDES OF OTHER TIMES.

Dress of a Dandy of the Early Nineteenth Century.

A cure for the confirmed railer against modern dress might be a course of inspection through a file of old fashion magazines or the perusal of such accounts as are given by the author of "Sketches of Lynn." The description is that of a suit worn in the first part of the nineteenth century.

The boots were an important article of dress. The toes were made as broad as the ball of the foot, with the corners well rounded, giving the shoe the resemblance to the snout of a shovel nosed shark. They were very snug and required strong straps. In order to get into a fashionable pair the heel of the stocking was well soaped and some pulverized soap sprinkled into the boot. The length of time it took to get one on depended on the strength of the owner and the strap.

The stylish overcoat displayed five capes, one above the other. The trousers were expected to fit as tight as the skin. Just how they were put on is a mystery. The coat was especially snug under the sleeves, and the velvet collar scraped up the back of the head. The camlet overcoats after a little wear, became as stiff as birch bark.

The thing worn about the neck was called a stock. This name was appropriate in its suggestion of an instrument of punishment. The stock was from three to six inches high, and was made stiff. A man was forced to look straight ahead. Only by careful management could he see a little on either side. About halfway between his eyes and ears two little points of collar stuck up like toothpicks.

Ruffled bosoms and wristbands finished the costume, with the addition of a tall silk hat. When inclosed in this manner, with a dash of attar of roses on his handkerchief, the man of the period was considered irresistible.

TOO HUMBLE A HUSBAND.

Position of Prince Albert, Royal Consort of Queen Victoria.

A woman looked up with a laugh from a heavy volume she was reading.

"Now I know," she said, "why Queen Victoria was so fond of the prince consort. This husband did not merely regard his wife as his equal; he regarded her as immeasurably his superior, saying that it was his duty to sink his own individual existence in her. Listen to this letter that Prince Albert wrote to the Duke of Wellington. Here is a champion of woman's rights indeed. Don't you think, though, it is going too far for a man to humble himself so low as this?"

She then read from her book in a sarcastic voice:

My Dear Duke—In the question whether it is advisable that I should take the command of the army I have come to the conclusion that my decision ought entirely to be guided by the consideration whether it would interfere with or assist my position of consort to the sovereign. This position is a most peculiar and delicate one. While a female sovereign has a great many disadvantages in comparison with a king, yet if she is married and her husband understands and does his duty her position, on the other hand, has many compensatory advantages and in the long run will be found to be stronger even than that of the male sovereign. But this requires that the husband should entirely sink his own individual existence in that of his wife and that he should aim at no power by himself or for himself, being content to be the husband of the queen, the private secretary of the sovereign and the tutor of the royal children.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

A Terrible Punishment.

Herr Hager, a wealthy and absent-minded banker who lived in Berlin many years ago, frequently had watches picked from his pocket. At first he had recourse to all kinds of safety chains; then one fine morning he took no precaution whatever and quietly allowed himself to be robbed. At night, on returning from business, he took up the evening paper, when he uttered an exclamation of delight. A watch had exploded in a man's hands. The hands of the victim were shattered and the left eye gone. The crafty banker had filled the watch case with dynamite, which exploded during the operation of winding.

COUNTY COMMISSIONERS.

Interesting Meeting of Board—Some Commissioners Appointed.

In compliance with the call, the Board of County Commissioners held their session here Tuesday for the purpose of talking over the plans of working of the exhibits for the State Fair.

The meeting was called to order, and it was ascertained that there were only three of the five members present—Hon. John G. Dampier, chairman; C. C. Pedrick of Gainesville district and F. F. Paulling of Hawthorn. However, it was a quorum, and it was understood at the last meeting that it might be impossible for Commissioners Osteen and Townsend to be present, owing to the condition of their crops and the time they were compelled to lose in coming and going.

A communication was read from N. A. Callison, who was appointed general commissioner to the State Fair Association from Alachua county a week ago. Mr. Callison stated that, however interested he might be in the Alachua county exhibit, he had his hands full in the individual exhibit of the Spring Park Stock Farm Company, of which he is the manager, and asked the board to appoint some other person; but the board insisted upon Mr. Callison's appointment, and he decided to accept same. Mr. Callison is really the most energetic man who could be secured for Alachua county, and it is fortunate for the people that he will be insisted upon as the proper man.

After a general discussion as to the best method of securing a good exhibit to the State Fair, A. U. Hilleary was elected as commissioner from District No. 4, and Hon. W. M. Blitch from District No. 1. The other commissioners will be selected at once, and General Commissioner Callison will proceed to work on getting an exhibit together.

Night Blooming Cereus.

Mrs. A. S. Taylor, who resides on South Oak avenue, sent to The Sun office Monday night a pair of night-blooming cereus, which were among the handsomest ever seen in this section. The bloom was as large as the ordinary teacup, with a flange as large as a saucer.

Mr. Taylor, who brought the flowers to this office, stated that the plant from which they were plucked bore twenty-one, and that the sight was a grand one.

This plant is quite a rarity, and is appreciated by lovers of flowers, many of whom have been to see the same.

A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER

Vigorous Health Is the Great Source of Power to Inspire and Encourage—All Women Should Seek It

One of the most noted, successful and richest men of this century, in a recent article, has said, "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

Mrs. Bessie Ainsley

To be such a successful wife, to retain the love and admiration of her husband, to inspire him to make the most of himself, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headaches, bearing-down pains, nervousness, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham:

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so I could not enjoy my meals, and half my time was spent in bed.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."—Mrs. Bessie Ainsley, 611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every sick and ailing woman.

If you have symptoms you don't understand write to Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

Death of Mrs. Daugherty.

Mrs. Mary Daugherty died at the Odd Fellows' Sanitarium at 2 o'clock Tuesday afternoon of dropsy, after an illness of several weeks.

The funeral will be held this morning at 10 o'clock from the home of C W McDonald, East Church St. Rev. Mr. Nixon of the Methodist church will officiate at the funeral.

Deceased was well known in this city, and had many friends, all of whom are very regretful over her death.

The pall-bearers will be E. Baird, Geo. S Merchant, J. F. Bunch, G. M. D. Bowers, M. B. Saunders, G. W. Hyde.

Attention, Colfax Rebekah.

All members of this order are requested to meet at the home of A. M. Cushman at 9:35 o'clock this morning, for the purpose of attending the funeral of our sister, Mrs. M E. Daugherty.

Visits His Old Home.

N. A. Callison, manager of the Spring Park farm, left yesterday for his old home, Galesburg, Illinois, where he will recuperate. Mr. Callison has been suffering for the past few weeks with fever, and hopes that a change of a couple of weeks will prove of benefit to him. He expects to return to Gainesville in plenty of time to take up the work of general fair commissioner from Alachua county, which he proposes to push with his usual energy, which means success. Mr. Callison authorizes every person, including the sub-commissioners, to address all mail relative to State Fair matters to N. A. Callison, general commissioner, State Fair Association, care Jesse E. Burts, Gainesville, Fla., when same will have prompt and proper attention during his absence.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Report Required by Commission.

New York, Sept. 18.—In a report to the interstate commerce commission, the Pennsylvania railroad shows that on its lines east of Pittsburg, it owns 33,411 freight cars and that 130,910, or 98 per cent of these, are equipped with air brakes. A report was required from all the railroads of the county by the commission to learn whether or not the law requiring 75 per cent of freight cars to be equipped with air brakes was being complied with.

Alabama has honored Johnston and Bankhead with the position of alternate Senators, but the trouble is no salary attaches.

Sullivan, the member of the National Committee from Illinois, is no relation to John L., but he seems to have inherited the fighting proclivities of the latter.

Never judge by appearances. A shabby coat may contain an editor, while the man wearing a plug hat and yellow kid gloves may be a delinquent subscriber.

The Census Bureau has discovered that the cost of living has decreased, but the bills we all pay tell a different story. Republican-made statistics always make a showing to "help the party."

President Roosevelt, like Diogenes with his lantern, is seeking an honest man to lead the Republican party in New York. It is to be feared his quest will be as unsuccessful as that of the Athenian.

Every able-bodied man who cannot show satisfactory means of earning a livelihood should be arrested and put to work. The Sun again calls the attention of the officers to the numerous negro loafers in the neighborhood of the Seaboard depot. They are a menace to the best interests of both races, and they should be put to work.

Georgia has a uniform school book law, says The Times-Union, under which school books are sold from 30 to 50 per cent cheaper than they are in Florida. The Georgia law requires the price of every school book sold in that State to be imprinted upon it. Sometimes mistakes are made and books intended for Georgia get into a shipment sent to some dealer in Florida. The Plant City Courier tells of a case that happened there recently. Really, the book people ought to be careful. Such revelations are apt to make Floridians discontented and rebellious.

A CASE IN POINT.

The British Empire, it is said, is the result of accident. One of France's greatest historians has said that a large part of the earth's surface was acquired by England in moments of absence of mind, but a more accurate authority claims that the empire grew, like a great fortune, because it could not help it. After the lapse of time the frontier had to be rounded out here, and made safe there, until each new acquisition involved the taking of something more to protect it. Like a railroad magnate who buys stocks and bonds in another road for investment, a receivership involves him in control and administration of the new road itself.

This is the penalty of Empire, expansion being very largely a habit. It is a dangerous habit, and difficult to cure, and it is to be hoped that the United States will not let the habit extend to Cuba. Of course American property in Cuba must be protected, and, as we are in a large measure responsible for the Cuban Republic, Europe will hold us responsible for peace there.

But let us hope that there will be no "accidents," no "absence of mind" leading to annexation, as was the case with the Philippines and Porto Rico. Let us not further acquire the Empire habit.

In a recent English paper is given a short account of the municipal business features of the city of Scarborough, a watering place in the northern portion of the country. The city owns a good many public utilities and makes money on them, and it will come as a surprise to people in Tampa to learn that the theatre—open during the few weeks of the season—returns a profit of three thousand dollars a year, while ground rents on property owned by the corporation bring in eight to ten thousand more. There is a good deal of ground adjacent to the Tampa Bay Hotel that might possibly be rented for business purposes, and it would seem that there would be nothing amiss in the city pocketing the profits of the casino after the present lease expires.—Tampa Times.

Lewis Emery, the reform candidate for governor of Pennsylvania, declares that John D. Rockefeller controls corporations which have a total capitalization of $5,200,000,000, and he gave the items too. As Mr. Emery has been fighting the Standard Oil monopoly for twenty-five years, and has kept posted on Standard Oil investments, his figures are regarded as approximately correct. This vast concentration of the wealth of the country in the control of one man, or the few, can only have been at the expense of the many, and the Republican system that has fostered it must be changed before there is a fair division for those who produce this vast wealth.

Lumber, steel and other building materials are abnormally high at San Francisco, so much so that it is seriously retarding the rebuilding of that city. The Republicans at the last session of Congress refused to allow building material to come in free of duty for a limited time, and thus prevent the trusts that control lumber, steel, etc., from raising prices to the unfortunate 'Friscans. No doubt the trusts and combines are reciprocating by liberal subscriptions to the Republican Congressional campaign fund.

It is said that many of the vacationists are returning home from the mountains and seashore only to discover that the gas meter has been working right along during their absence.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

STATE FAIR NOTES.

Building to Be Dedicated Solely to Educational Resources.

The ambition of the progressive educators of Florida to have at the State Fair a building dedicated solely to the display of the educational resources of the State will be gratified. Owing to the greatly increased demand for exhibit space since the Fair of last year the directors have found it necessary to erect a number of additional buildings. Absolutely no exhibit other than educational in character will be allowed in the building, and for the first time in the history of the State of Florida the educational advantages of the State will be shown to advantage to the thousands of visitors. Every school and college, either public or private, owes to itself and to the State of Florida the duty of being represented.

For the benefit of the teachers and pupils a special day will be designated as Educational Day, and the county boards of education and superintendents should grant holidays in honor of the occasion. Several of the most noted educators of the country will visit the Fair on Educational Day and address those attending. An educational conference will be held that will be of greater consequence than any conference of the kind ever held in Florida. Every teacher should at once apply for a premium list, and discuss with their pupils the different subjects for which prizes are offered. A postal card addressed to the Fair at Tampa will get a list.

Premium lists of the coming Florida State Fair are now being distributed by the hundreds, going to the prospective exhibitors in the different parts of the State. The lists are this year contained in a handsome book of ninety-six pages, which can be kept and referred to in years to come by those interested in the Fair. President T. J. L. Brown has given an entire year to the preparation of this book, and it is the most complete ever issued by a Southern State Fair. Every citizen and every producer of Florida should read the list carefully, and be represented at the Fair by an exhibit of some kind. Lists will be gladly sent to those who write President T. J. L. Brown at Tampa.

Nineteen more young soldiers from the Philippines were admitted to the St. Elizabeth government hospital for the insane on August 30th. This continual drain is a high price to pay for governing and taxing people without representation, and what must the condition be that bring such sad results.

The G. O. P. is no longer the grand old party, but since it has cast off its disguise has proven to be the Great Octopus Party.

CROP CONDITIONS IMPROVING.

Cotton Reports in Tennessee More Hopeful Than 10 Days Ago.

Memphis, Tenn., Sept. 18.—The Commercial-Appeal's weekly summary of crop conditions covering the central states of the cotton belt, is as follows:

Deterioration in the cotton crop's condition since the middle of August is a fact well certified to, yet, though the loss has been considerable from a promise which was then exceptional many correspondents are still hopeful of a good yield. Exceptions for a return less than last year, while they appear, are the exception, but because of the recent heavy loss which the plant has sustained, many correspondents attach some importance to the date of frost and the weather preceding frost. The past week has been favorable to the opening of cotton and in hill lands the fields are inviting to the pickers. Excessive heat has retarded gathering, however, in many sections. Only in a few localities have the rains been of sufficient consequence to do any damage or retarded the gathering.

The general disposition seems to be to market the early cotton.

The cotton plant continues to shed its new forms and some rotting in the rank and overgrown bottoms is complained of. The brilliancy formerly attaching to crop prospects has worn off, and conditions have become more normal for the season. The tone of reports is more hopeful than was the case ten days ago.

Atlanta Men Robbed.

New York, Sept. 18.—The American liner New York reached her pier Sunday with many of her passengers, unsciously, under suspicion. On the way over James B. Thompson, of Atlanta, reported that he had been robbed of a Swiss gold watch, valued at $1,000, and a day later J. Carroll Payne of the same place, reported to the captain the loss of $350. As soon as the New York could reach the wireless station, a local detective agency was informed and it had several men on the pier when the vessel arrived. They consulted the officers and examined several of the employes, but no arrests were made.

Men Past Sixty In Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Negro Killed by a Street Car.

Houston, Tex., Sept. 18.—One negro was killed by a street car, a man and woman shot and a woman cut, is the record of blood-letting among the negro population here. Andrew Dickenson, an aged negro, was killed by a street car early in the evening, being cut in two. William Humphrey used a shot gun on his wife. C. Talbot, 15 years of age, shot a hack driver in the stomach and Hannah Denison cut Mary Powell with a hatchet. The street car accident is the only death so far, but the others will die of the wounds received.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

Ran Mower Over His Little Son.

Sandersville, Ga., Sept. 18.—While George N. Ivey was running his mower, cutting grass near his house, his little boy hid himself from his father directly in the track of the mower, and both the litle fellow's legs were almost severed from the body, the bones being broken and only the muscles holding them together. He was brought into Sandersville, about four miles, and his wounds dressed. It is thought the doctors will be able to save his limbs.

Carload of Matches Ignite

Houston, Tex., Sept. 18.—International and Great Northern extra freight train from St. Louis and points east with shipments for Houston, San Antonio and Lerado was derailed at Prices switch, 16 miles north of Palestine. One of the cars carried a half car of matches and these were ignighted and the flames spread to 14 other cars of the 23 derailed. A special train carrying the emergency apparatus of the International and Great Northern shops at Palestine was sent out, followed by a special train with officials of the roads. Trains 5 and 7 have been annulled and no trains will pass the point until the two passenger trains are over the road, which will be some time during the day. The cargo of merchandise was very valuable, and the loss will be heavy.

Discoverer of Northwest Passage Thinks He Found Magnetic Point.

Seattle, Wash., Sept. 18.—Captain Ronald Amundsen, discoverer of the southwest passage, reached Seattle on the steamer Saratoga from Nome. He was met by a committee of the chamber of commerce and the local Norwegian societies. Owing to his desire to reach the government observatory at Sitka, in order to complete his magnetic observations, Captain Amundsen sailed for Sitka on the steamer Jefferson, a short time after his arrival.

"My observations extend over a period of three years, and it will take three years to calculate them out," said he.

"Until that time it is utterly impossible to say positively what I have accomplished by my observations. I believe, however, that I have located the north magnetic pole. I cannot say as yet whether it is a shifting point, or extends over a large area. We also took careful observations of the aurora borealis, and I believe my observations will show that this phenomena has a marked effect on the compass. Our zoological and thnological collection is fairly complete."

Valuable scientific instruments used by Captain Amundsen in taking magnetic observations were not to be found when he left the steamship Saratogo. Their loss may "seriously interfere with his magnetic observations.

"LUCKY" BALDWIN.

His Whirlwind of Speculation In the Mining Regions.

In 1853 a little party of gold seekers with a meager outfit of horses and wagons started for California from the village of Racine, Wis. In command of this adventurous expedition was a young man who took with him his wife and infant daughter. His name was E. J. Baldwin and he made a wise choice in shaking from his restless feet the dust of a tamer civilization. He needed a larger theater of action for his pent-up and surging activities. While trailing through the mountains of Utah the pioneers were attacked by Indians, who were beaten off during a six hour fight in which young Baldwin killed their chief. After six months of hardship the party reached Hangtown (later called Placerville), in California.

Here Baldwin tarried and began placer mining. He appears to have been no more than an ordinary red shirted argonaut, meeting the ups and downs of mining luck until the discovery of the Comstock lode at Virginia City. Thither he drifted and discovered that his natural bent was gambling with the mines that other men had opened. Amid a whirlwind of speculation he fought his way with such success that he loomed from the smoke in a few months as "Lucky" Baldwin, the man who had cleaned up $7,500,000 in the gigantic deals in the stock of the Ophir mines.

San Francisco was the Mecca of those lucky sons of fortune who were rearing a great city by the Golden Gate. As a stock and mining speculator "Lucky" Baldwin shone respendent, but he was also a loyal son of San Francisco. He built hotels and theaters and business blocks even while he was amazing that far from conservative community by madly freakish extravagances.

In a very lucid interval he bought all the Spanish grants he could find near Los Angeles and there spent a million in making this ranch of his not only a splendidly productive property, but also one of the most beautiful estates ever laid out in this or any other country. It was his hobby, his pet, and he planted miles of avenues with noble shade trees and made wonderful tropical gardens, surrounding his home by a paradise of vernal beauty.—Ralph D. Paine in Outing Magazine.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Bitter Jerrold.

Among the sayings attributed to Douglas Jerrold is a very bitter one he applied to Mark Lemon, then editor of Punch. Lemon was deeply attached to Dickens and showed it in a very open fashion, which perhaps aroused the great satirist's jealousy. At all events, as Jerrold was walking out one day with Lemon and another friend, and Dickens with several more behind them, Lemon suddenly dropped away and turned back. "What has become of Punch?" asked Jerrold's companion. "Did you hear Dickens whistle?" was the cynical reply. "Dickens pays the dog tax for Lemon."

Liberty, Equality, Fraternity.

The French philosopher M. Le Bon, commenting on the motto of the revolution, "Liberty, Equality and Fraternity," declared that the real difference between the French and the British lay in the fact that the French were enamored of equality and cared little for liberty, while the British insisted on liberty and never gave a thought to equality. And when some one quoted this to Rudyard Kipling he instantly added his own comment to the effect that what the American really preferred was fraternity. "He is a good fellow himself, and he expects you to be one."

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It makes kidney irregularities and builds up the whole system. J. W. McCollum & Co.

AT THE OPERA HOUSE.

Peruchi-Gypzene Company Entertained Another Good House Tuesday.

Another big crowd saw the Peruchi-Gypzene Company's performance at the opera house last night, and nearly all appeared to agree that it was even better than the first night.

The play last night was "Eagle's Nest," and it is a wonderfully thrilling and absorbing story of the early days in the California hills. The play was excellently acted and the performance surpassed many that have been here at much higher prices. The specialties were all clever and enthusiastically applauded.

The play for tonight, the last of the series, is "An American Correspondent," a military comedy-drama. Manager Will J. Irvin of the company says that in all the thirty-five plays in their repertoire there is not one that appears to please audiences as well as "The American Correspondent." He also states that the company expects to play a return engagement here later in the season, and they are anxious to make the last play the best.

The prices are 25, 35 and 50 cents, according to location of seats. Reserved seats at 50 cents each are on sale at Vidal's.

A Wedding Party.

T. B. Ellis, Jr., accompanied by his sister, Miss Dora Ellis, and his uncles, W. B. and Geo. R. Ellis, left Tuesday for Jacksonville, where, on Tuesday afternoon at 6 o'clock, they witnessed the marriage of T. B. Ellis, Jr., and Miss Lucille Hennington.

Mr. Ellis is one of the most widely known young men in this city, having been born and reared here. Miss Hennington is also well known here, having been employed at one time as stenographer in the office of Thomas & Ellis, attorneys. Mr. Ellis first met Miss Hennington in this office, which culminated in the marriage. Friends wish them much happiness in their married life.
